

## DECLARATION OF CONFORMITY

### RoHS - REACH

#### RoHS

All equipment manufactured by Intarcon are compliant with all requirements set by the European Directive 2011/65/EU and Commission Delegated Directive (EU) 2015/863 on the limitation of use of certain hazardous substances in electrical and electronic equipment, ensuring that none of them is present above the legally established limits.

To ensure compliance with these requirements, Intarcon ensures compliance of them by all their component suppliers.

#### REACH

All equipment manufactured by Intarcon are fully comply with the related requirements of European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of certain Chemicals, not containing any of the substances named high concern (SVHC) in higher amount that the allowed.

To comply with its regulatory obligations, Intarcon will notify, if the case arises, the existence of some of these substances in greater quantity to the legally established (> 0.1% w/w) under Articles 33.1 and 33.2 of the Regulation.
