

intarblock PRO Water-cooled

New range of R-290 self-contained slim monoblock designed by and for technicians. Water-cooled. For small and medium refrigeration and conservation cold rooms. Units for wall-mount installation.

FEATURES

Condensation with water at a temperature between 5 and 50 °C.	Optional
Condensation with glycol water at a temperature between -10 and 5 °C (only in NT models). Includes automatic pressostatic water valve controlled by condensing pressure, with direct drive.	Optional
Water solenoid valve for installation outside the unit.	Optional

Optional

*See page 16 and 17 for features, options, accessories and dimensions.

Installation example

230V I+N ~ 50Hz / 400V 3N ~ 50Hz | Positive temperature - Water cooled | Hermetic compressor | R-290

Refrigerant	Series / Model	Power supply	Compressor (HP)	Cooling capacity / Cold room volume, according to cold room temperature ⁽¹⁾						Input power (W)	Max. current (A)	Evap. air flow (m³/h)	Conden. flow (l/h)	Hydraulic connection	Refrigerant charge per circuit ⁽²⁾	Weight (kg)	SPL dB(A) ⁽³⁾	Price (€)
				0 °C		5 °C		10 °C										
				W	m³	W	m³	W	m³

⁽¹⁾ Nominal performances refer to operation with cold room temperatures of 0 °C (PT) and -20 °C (NT), with inlet/outlet water temperature of 40/45 °C. Estimated cold room volume according to conditions of the calculation bases (page 12).

⁽²⁾ A3 refrigerant charge below 500 g, simplified compliance with EN378.

⁽³⁾ Sound pressure level, with directivity 1, measured at 10 m from the unit (non-binding value calculated from sound power).

* 230V 50Hz available model.

⁽⁴⁾ Power supply change by demand.

PVP water condensed: 5% on standard air condensed price. See page 17.

Consult cooling capacities before ordering.
